Citizens of Two Kingdoms

Citizens of Two Kingdoms examines the twenty-first century's radical nature: religion is once more centre-stage around the world, Christianity has become polarised in America, secularism and the cult of the individual taking hold in Europe, Christians departing the Middle East in ever-increasing numbers, and terrorism sweeping the globe. On top of all this, the world is facing a global financial meltdown.

How should Christians react to the new reality?

Becoming a Course Leader gives you the opportunity to play your part in making our world a more peaceful place, in which people of all faiths and cultures understand and respect one another.
